ENVIRONMENTAL POLICY

A & J Welding Supplies Ltd is a successful supplier of welding equipment, accessories and associated products, particularly to the fabrication and automotive sectors.

The supply of welding equipment and accessories at short notice to the site location required by the customer is an important aspect of customer satisfaction and has enabled the Company to operate successfully in the automobile industry.

Our environmental policy is to be a responsible corporate citizen in protecting the environment. We are committed to complying with accepted environmental practices, including the commitment to meet or exceed applicable legal and other requirements, to strive for continual improvement in our environmental management system, and to minimise the creation of waste and pollution. We will, therefore, manage our processes, our materials and our people in order to reduce the environmental impacts associated with our work.

A & J Welding Supplies Ltd pledges to implement and operate an environmental management system to further enhance environmental performance. Our main objectives are to:

- Ensure our customers are provided with current environmental information related to our products.
- Disposal of all waste or redundant materials in a responsible manner.
- Increase the environmental awareness of staff.

The policy will be communicated to all parties interested in the performance of our environmental management system.

General Manager
